Hi Melody,

We have the name on our birth certificate and then we have the name we use in our everyday life, which may change as we get married, divorced, or just want to change our name. Our current name carries with it a vibration or frequency attached to the letters in the spelling. I am using the ancient Chaldean system to calculate your code.

I have always been sensitive to these frequencies and can see the energies shift according to the name one uses. Having a strong frequency or vibration adds strength to helping us with our life quest and fulfilling our goals. Not having the best frequency will not keep us from success or our destiny, as evidenced by many famous people with difficult name spellings. But challenges and blocks can be minimized by the choices we make, our intentions and also a fortunate name vibration. It gives us an edge and can smooth the path.

It is best to use just one current name. If you use two or more versions, then each dilutes the vibration. This one name should be on everything you use and see on a daily or regular basis, as it is (credit cards, bank accounts, bills, correspondence, Facebook name etc.) Every time you look at or sign your name, you're activating the number. It should be the name you are formally introduced by.

Melody Zindell resonates to **52/7**

52/7 is a number that the ancients considered unfortunate, falling under the challenging category. 52 is symbolized by the tendency towards upheaval, revolution, strife and conflict. So, this vibration can often be a life filled with obstacles and often failure and

disappointment. It can create block towards moving forward with your life quest with grace and joy.

Melody Scott Zindell has a great frequency code, resonating to **10** using the Chaldean-Hebrew Astro-numerology System. **10/1** symbolizes Love and Light and is referred to as the 'Instant Manifestation' number. With this number, you can manifest anything you can imagine. If you can envision it, it will materialize. The power for manifesting your creative ideas into reality is truly remarkable with this number – yet you must use wisdom, since the creation WILL manifest, whether good or bad.

As to how the 10 reflects in your life greatly depends on whether you can SEE the difference between good and evil, and act accordingly. 10 is capable of eliciting strong responses of Love – or hate. There is no middle ground between honor and dishonor. By using your self-discipline and compassion, the 10 vibration will work miracles for you. Use this name if your outlook on life is positive (glass half full).

I typically don't recommend using a middle initial or name because you then should introduce yourself that way formally as well. People may still call you Melody Zindell and you would be essentially using two names, diluting the numbers for both. But of course, if you can train yourself and others to always use all three, it can work. However, I played around with some alternative spellings for you that add up to highly fortunate numbers:

Mellody Zindell also resonates to **10/1**.

Melody Zinndel resonates to **54/9**.

54/9 is a very strong vibration. It signifies you are determined to get what you want. You don't play games, but simply demand what you

want. Your instinct is to give, let go and let what tomorrow brings happen.

9, containing all numbers from 1 through 9, is the number of beginnings and endings. Exemplified in the quote, 'I am the Alpha and the Omega.' Getting to the point quickly is a key to a 9. The greatest 9 people infuse this ability with compassion. 9s love to give and let go. 9 is one of the numbers signifying abundance.

MELODY ZINDELLE and **MELODY ZINDEL** resonate to **12/3**.
Not recommended.

MELODY ZINDEL resonates to **14/5**.

14/5 is a really fortunate vibration. It signifies magnetic communication with the public through writing, publishing, the internet and all media-related matters. Occasional changes in business and partnerships are usually beneficial. Travel and meeting people as well as speculative matters are fortunate.

There is a strong pattern of change with this vibration, so you can experience both gains and losses, which are temporary in nature. Do not rely on others, but on your intuition, your inner voice. This is a lucky number concerning all financial matters, including "gambling," though be guarded against overconfidence or bad advice from others. A great number for anyone, in particular if you have or want any contact with the media.

Melody Scott adds up to **45/9** - a highly fortunate frequency code, with the ability to turn your dreams into reality. 45/9 is a highly fortunate vibration of courage and power. Its harmony and excellence

blesses you with a promise of command and authority. It brings a high likelihood of great rewards when you apply your intellect, your imagination and creativity to sow seeds reaping a rich harvest. You should always make sure to carry out your own original ideas and goals – don't be intimidated or influenced by opinions, which differ from yours. This is a number of great rewards.

Changing names is a big deal and takes some effort, however the results can sometimes very quickly manifest some magic! It can also take a few months or even up to a year to integrate the full effect of your new spelling.

Please let me know if you have any other questions or if you would like me to look at other spellings.

Love,
Melody
